WORK EXPERIENCE

Programmer Analyst

Cognizant Technology Solution Corporation

10/2022 – present | Noida, India

- Developed and maintained **MERN-stack** web apps and **React Native** mobile apps, improving feature delivery by 25%.
- Built **RESTful APIs** with **Express.js**, added authentication/validation for secure integrations.
- Created responsive UIs in **React + Redux**, boosting user engagement by 15%.
- Automated ETL jobs with **AppWorx**, cutting manual effort by 40%.
- Wrote **PL/SQL** scripts and **Oracle Forms** to streamline oneBMS data workflows.
- Worked with the release team on **production** and **UAT** deployments using **Jenkins**, **Docker** and **GitLab CI**.
- Used simple **release-automation** tools and **Agile planning** to keep deployments smooth and repeatable.

Programmer Analyst Trainee

Cognizant Technology Solution Corporation

01/2022 – 10/2022 | Noida, Delhi

- Created a **React Native** e-learning platform delivering engaging, accessible course content.
- Managed **Agile/Scrum** board in **JIRA**; estimated story points and tracked progress to ensure on-time sprints.
- Streamlined **Git** branching and pull-request workflows, reducing merge conflicts by 30%.

React Native Intern

AppyHigh Technology

02/2022 – 06/2022 | Gurugram, India

- Built AI-driven chat interfaces in **React Native**, integrating third-party **ML APIs** for real-time responses.
- Enhanced a **Flutter** app's UI and performance, resolving 20+ bugs and improving launch speed by 20%.

Floor Supervisor

Sony India Pvt. Ltd

11/2017 – 08/2019 | Delhi, India

- Led a team in retail operations, troubleshooting camera and PlayStation systems to deliver 98% uptime.
- Implemented QC checks and process improvements, reducing defect rates by 15%.
